Re: Kohnen Starkey Inc. Letter of Recommendation

To Whom It May Concern,

KPF

I have known Kevin Kohnen and Mark Starkey since mid-2007 when Kohnen Starkey Inc. joined our consultant team for our work at Washington Dulles International Airport. Kohn Pedersen Fox has served as prime architect for Dulles Airport's new Tier 2 Midfield Concourse since 2001, and when the opportunity arose we invited KSI to join our team as construction cost estimators and construction package schedulers. I, as project manager for this large project, have greatly appreciated their contributions ever since.

I have been consistently impressed by KSI's overall professionalism and commitment to their work. They have performed to my complete satisfaction in the cost estimate reports they have published as well as the working process they bring to the project. With cost estimating work dependent upon internal, team-defined information as well as external, industry-driven factors, KSI proved themselves time after time to be very much in command of the information they had obtained and always capable of providing a lucid discussion for the benefit of our team.

I highly recommend Kohnen Starkey Inc. Please let me know if you need further information, and feel free to contact me directly at 212.237.3503.

Sincerely,

Kohn Pedersen Fox Associates PC

Mark Townsend
